## Serious Driv= ing Accident

## Team Drive Right Into a Deep Hole on Third Street East

An accident which resulted in considerable damage and might have even more serious results occurred last night. About 10 o'clock Dr. J. C. Wainwright was driving Mr. Sloan, an Edmonston undertaker, home in a surrey. Dr. Wainwright turned out of Whyte avenue into Third street east. As is well known, last night was cloudy, and at the best of times Third Street east is not well lighted. At the present time the sewer in First avenue north is being constructed and opposite Dr. Archibald's house there is an open ditch. A single lantern had

then placed as a warning but unfortunately not in such a position as to be seen along Third street east and the consequence was that Dr. Wainwright was right on to the ditch before the light could be seen. He pulled his team away from the warning light and across towards Dr. Hotson's, but this only drove him into the open sewer. Both horses plunged in one on top of the other, and by the sheerest good fortune the two occupants of the survey were not thrown in on top of

the plunging and kicking horses. Aid was especially at hand and robes and planks having been obtained the work of getting the horses out of the ditch was proceeded with. It was a long and difficult task to rescue the horses and it was midnight before the second horse had been brought out. Both horses are considerably damaged

one in particular having apparently injured his back very badly. The pole of the surrey was broken and the vehicle otherwise badly damaged and the harness broken into finger lengths. It is a matter of congratulation, however, that both Dr. Wainwright and Mr. Sibon escaped unscathed. Without passing any comment on this par-

icular case which prejudice the matter one way or another in the not unlikely case of litigation arising, we must state that in general no sufficient precautions are taken to warn drivers against road dangers in this city. When excavating is going on the hole should be railled in and a lantern hung at each corner. A single lantern is more effective than

The sergeants, hearing that Buchan was to be sent to the depot to the hospital, arranged for his deportation to the hotel to await him to a banquet. Colonel Robertson, representing the troops, said that he expressed "his" delight felt by the kindness he and his men had received Scottish and, if any members or members of the detachment were to be sent from the members of the Liverpool Toronto he would endeavor to express his appreciation.

**CURRENT COMMENT**

We are anxiously waiting to hear Dr. McIntyre's views on rural mail delivery now that the postmaster general has given his blessing to the scheme. Probably Dr. McIntyre will perform the interesting trick known as swallowing himself. The Doctor isn't a bad hand at this, you know.

We wish we knew the moral strength of the Oliver meeting at Calgary. We know the Edmonton meeting was about the latest thing we ever saw for a cabinet minister in his own town. Half the audience had left before the meeting was over and the remaining half were pretty well divided, so far as politics went. At Stratcona we understand the McIntyre meeting was a fiasco.

Duncan arraigned, that warlike figure that ornaments city politics by being with his presence and whose actions are the subject of the House of Commons, the Saturday News and the Alberta Star, is now in Stratcona. One government has tried to make use of the platform of Mr. Marshall was allowed to remain in the hall and Mr. Marshall got out. It is said that a bloodbath was told if he didn't get out of the town he would be put out via the river. He got out.

What about the Aylmer and Varsity act? Weeks of work, \$25,000 and a million and a half in political money (taking a dollar a week of \$24,000 a day) was squandered as an attempt to house the Manitoba voters' hats. The government has abandoned the scheme, but the public are entitled to know why it was introduced.

We observe that Mr. Oliver made a word about the Prairie charges. Here is another sketch in the government cupboard. There is a few honest Irish who don't like to see the fact that Mr. Oliver was elected at Stratcona, and who are not so much as to see him in the Manitoba voters' hats. The government has abandoned the scheme, but the public are entitled to know why it was introduced.

**TRUCK TRUMPS.**

The pupil and politics do not go well together in the case of the editor of the Toronto Globe.

The wheels of the gods go round slowly, but surely. The Globe is coming into its own on the Crow's Nest trail.

Today's journalism from the west is just a little advance agent of the blizzard bill to hit Clifford on Oct. 26.

Premier Roblin calls the editor of the Globe a "survival hypocrite." It looked yesterday as though the editor had pretty nearly eaten the Unabridged, but he has to go some to beat these western men.

If these jug-headed humbugs who

steered Sir Wilfrid Laurier into giving them concessions worth tens of millions, had gone to Mexico, Venezuela, or some country where there is no extraordinary law instead of moving into the Canadian Senate, Canada would have been the gainer.

The Globe isn't roarin' these days; its squeal is L.

Another ex-M.P. has gone to his reward. This time it's a Postmaster.

Sir Wilfrid has given every elector in Canada a steady job-raising tax.

No fuel shortage in the west this year. The Price Press is cheaper this autumn, and it's dry enough for anybody.

A specific for the white plague has been discovered. A specific for the greater plague is likely to be discovered on Oct. 26.

Senator Robert Jaffray now threatens to take Premier Roblin into court. He's just waiting till the Premier repeats his charge. That should do it.

## Rural Mail Delivery

(Mail and Enquire.)

It was a sharp turn that Rodolphe Lemieux had to make on the question of rural mail delivery. Last February, Mr. J. A. Armstrong, the talented member for West Lambton, brought the matter up in Parliament and advocated the system. At that time, Rodolphe was hostile. He said the position was out of the question. But, he added, "When we reach a population of 20,000,000, and I am 'kill Postmaster-General, I can prove 'miser rural mail delivery.' On April 18 the subject was up again. Rodolphe was still against the adoption of the idea. He asserted that it had produced deficits in the United States, and exclaimed, "For the present we cannot give this country a free delivery."

Everybody in the party followed Rodolphe. Sydney Fisher, that great agricultural statesman who invented the plan of feeding chickens with a squint, was particularly loyal to the Lemieux view. He went out into the rural districts and told the people that the thing was impossible, and that if tried it would stand us in a financial disaster. What a marvelous conversion Rodolphe experienced! Just when Parliament was about to be dissolved Rodolphe was about to be dissolved. He had devised the policy, and Mr. Armstrong, who had urged the idea upon him, concluded that he had better capitulate. Then there was activity in the Postal Department. Draftsmen were set to work to draw pictures of rural letter-boxes; and these were despatched, with full instructions, to the harnessed organs for publication, as a

sort of guarantee that the turn-over was real. Papers which had fought the reform in Rodolphe's behalf were now compelled to say that it was the grandest discovery yet made. It happens, however, that owing to the extent of the country the news of Rodolphe's wonderful volte-face did not reach every pro-grain organ in time. The Winnipeg Free Press, the mouth-piece of Sifton and Brother-in-law Burrows, and of Trefill and Brother-in-law Adamson, had just published an article saying that rural mail delivery is a mere scheme of plunder, when the news of Lemieux's altered policy reached it. Similarly, Frank Oliver's paper, the Edmonton Bulletin, was caught. The Edmonton paper the day that Lemieux was at Niagara Falls, developing his great project, had an article headed "Merely a Vote Catcher," which says that no intelligent man wants rural mail delivery, and

that, if given, the expense will far outweigh the benefit. "Voters should have done the speaker who can pose upon their intelligence by indulging in such clap-trap." Rodolphe evidently changed without letting Frank Oliver know that he was about to be converted. The turn-over is one of the humors of political life. And yet it has its dark side, for it shows that the greater the moment would rather do what it has pronounced as disastrous to the country than forfeit its opportunities at the public chest.

Stomach troubles would more quickly disappear if the idea of treating a case rather than the effect, would come into practice. A tiny, inside, idiosyncrasy, says Dr. Shoop, governs and gives strength to the stomach. A branch also goes to the heart, and as to the kidneys. When these "inside nerves" fail, then the organs must fail. Dr. Shoop's Restorative is directed specifically to these failures. Within 48 hours after starting the Restorative treatment patients say they feel a gain. \$1.00 by all doctors.

The Canadian Northern Railway has been fortunate enough to make arrangements with the Railway line in the United States so that they can return harvest laborers to points on the Grand Trunk Railway system in Canada practically the same rate as would be in effect returning via the Canadian Pacific Railway. They are open to issue these reduced rate tickets to laborers who came up on the harvest excursions via the Canadian Pacific railway as well as those who came up via Chicago and their own line.

This, no doubt, will be appreciated by a great many of the harvest laborers who came up direct and anxious of returning via Chicago. Any agent of the Canadian Northern railway is in a position to give laborers information, under what conditions cheap rates can be obtained.

In the police court to-day before Police Magistrate Downes, Joe Deveraux, the man charged with arson was brought up and remanded on that charge for eight days. The charge of living off the proceeds of prostitution was then proceeded with. The prisoner submitted his passport to a severe cross-examination, but altogether failed to shake her evidence. She pleaded that Deveraux had lived on her immoral earnings for over a year, mostly ever since she came from England and that she had built the house with her earnings. Taking the stand in his own defence the prisoner was cross-examined for over an hour by the chief of police. The magistrate found the charge proved and sentenced Deveraux to six months' imprisonment and a fine of \$25 and in default of payment an additional three months. The same charge will be dealt with later.

## Found Salvation

North Bay, Ont., Oct. 1.—A thousand people crowded into the new Royal Theatre here last night to hear the Liberal Administration denounced by Mr. Thos. Murray, ex-M.P. of Penticton. Mr. Murray has been a prominent and influential supporter of the party for a number of years and has represented North Bay in both the federal House and the local Legislature and a few years ago he was the Liberal member in the Dominion House for the County of Pontiac, in the Province of Quebec. He has been dissatisfied with the actions of the Liberal government for some time, but gave North Bay the pleasure of having his first public denunciation of the party by reason of the number of friends he has here on the Liberal side and also from his early associations with the town, he having been one of its founders.

Mr. Murray said he had no axe to grind, and was disappointed in the policy, but his sole reason for making the change were the corruption, dishonesty and extravagance of his former associates and his loss of confidence in Sir Wilfrid, whom he referred to as a weakling. He had been elected as representative of the Liberal party for the county of Pontiac in 1892, his policy being the Liberal platform of 1891, but was surprised, disappointed and laughed at when he would urge in Ottawa that the redoubt given to the people on the handlings should be carried out. He was then and still is strongly in favor of Senate reform but on bringing up the question in caucus, crowded over by Senator Edwards as chairman, this gentleman stated that Providence was doing the reforming in taking off the Conservative members one by one and all the Liberal members were in the majority, and this was his interpretation of the plank in the Liberal platform.

He also paid his respects to Mr. Murphy, the new Cabinet Minister. Mr. Murray is himself an Irish Roman Catholic, but he deplored the fact that it should be so conveniently kept before the people by Sir Wilfrid that some man must always be in the Cabinet whose chief qualification was his religion. Irish Catholics as a whole did not care if the entire cabinet were Protestant, so long as the business of the country was conducted honestly. In any event who is Mr. Murphy? He has never been heard of as occupying a prominent position in his profession. He has no public experience, not even as a municipal councillor; he cannot get a society of town, his place of residence and where he is best known, nor can he even get an Irish Catholic constituency in any part of the Dominion, but must seek election in the County of Russell which is overwhelmingly French.

Mr. Murray's stand will be of great assistance to the Conservative candidates in Nipissing and Renfrew, and with his assistance all doubts as to their success are now cleared away.
